i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The first Journal “i-manager's Journal of Educational Technology” was released way back in 2004, and the first Engineering Journal, “i-manager's Journal on Engineering and Technology” was released in 2005. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Mathematics is an earnest effort to promote the application of Mathematics to Physical Problems and to understand their relationships expressed in numbers and other special symbols. Mathematics involves planning, design,

construction, quality assessment and control, and none of these would be possible without its application. The most fundamental reality, and everything else emerges from mathematics, and mathematics lies at the center of all Physical sciences. The Journal aims to focus on high quality papers from academia and practitioners in all areas of Mathematics including its Vedic form by ensuring its traditional and scientific priority.
