Editor-in-Chief: Dr. Sanjeevikumar Padmanaban

Associate Professor,

Department of Electrical and Electronics Engineering Science,

University of Johannesburg, South Africa.

Call For Papers

i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Embedded Systems presents a field of engineering interconnected with Electrical, Electronics and Computer science which addresses the systematic design of embedded systems, focusing primarily on tools, methodologies and architectures for embedded systems, including HW/SW co-design, simulation and modeling approaches, synthesis techniques, architectures and design exploration, among others. The Journal aims to focus on high quality papers from academia and practitioners in all areas of embedded systems by ensuring its scientific priority and significance. i-manager's Journal on Embedded Systems is also in the UGC approved list of Journals

Why Publish with us?

- No Publishing Fee
- Abstracting & Indexing in leading databases
- Double-blind Peer Review
- Highly qualified Editorial Board
- Publishing Journals since 2004
- Maximum Publicity in Social media
- Rapid Publication: 2-3 months
- Full archive available from Volume 1 onwards

Abstracting / Indexing

Overall Topics covered:

- ◆ Applied Computing in Embedded Systems
- ◆ Embedded System Architecture
- ◆ Embedded Hardware Support
- ◆ Embedded Communication Systems
- ◆ Software for Embedded Multicore
- ◆ Dependable and Real-Time Embedded Systems
- ◆ Ubiquitous Computing
- ◆ Hardware and Software Co-design
- ◆ Embedded Multimedia Applications
- ◆ Synchronous Multimedia Applications
- ◆ Testing Techniques in Embedded Systems
- ◆ Computational Intelligence
- ◆ Telematics Control
- ◆ Pervasive Embedded Computing and Communication Systems
- ◆ Multi-Core and Parallel Architectures,
- ◆ Networks-On-Chip and Systems On Chip
- ◆ Ubiquitous Technologies in Design, Research and Social Contexts
- ◆ Novel Architectures in Embedded Systems
- ◆ Accelerators for High Performance Computing
- ◆ Compilation Techniques Multi-Core Computing Applications
- ◆ Computational Science and Advances in Embedded Systems
- ◆ Embedded Solutions for Emerging Markets - Infrastructure, Energy, Automotive
- ◆ Embedded based Automation.
- ◆ Embedded Computing and Embedded Intelligence
- ◆ Patterns for time-triggered embedded systems
- ◆ Embedded Based Alert Systems
- ◆ Embedded Based Human Interface Applications

Features

Articles, Research Papers, Review Papers.

Periodicity

January - June, July - December

Target Audience

Academicians, practitioners and post-graduate students in the field of Embedded Systems, University Educational Bodies, Researchers, etc.
