i-manager's Journal on
Mathematics (JMAT)
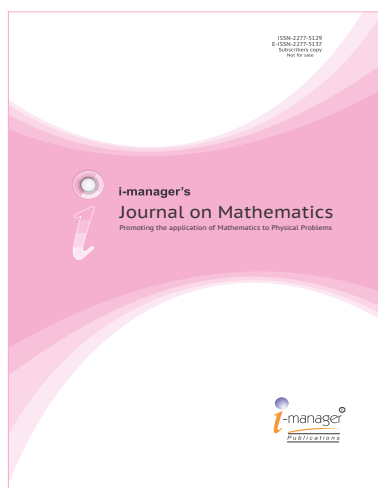

Published by i-manager Publications, India.

http://www.imanagerpublications.com

Editor-in-Chief: Dr. Syed Mohammed Rizwan
Professor and Head,
Department of Applied Mathematics and Science,
National University of Science and Technology,
Sultanate of Oman.

Call For Papers

i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Mathematics is an earnest effort to promote the application of Mathematics to Physical Problems and to understand their relationships expressed in numbers and other special symbols. Mathematics involves planning, design, construction, quality assessment and control, and none of these would be possible without its application. The most fundamental reality, and everything else emerges from mathematics, and mathematics lies at the center of all Physical sciences. The Journal aims to focus on high quality papers from academia and practitioners in all areas of Mathematics including its Vedic form by ensuring its traditional and scientific priority.

Why Publish with us?

- No Publishing Fee

- Abstracting & Indexing in leading databases

- Double-blind Peer Review

- Highly qualified Editorial Board

- Publishing Journals since 2004

- Maximum Publicity in Social media

- Rapid Publication: 2-3 months

- Full archive available from Volume 1 onwards

Abstracting / Indexing

Submission email : submissions@imanagerpublications.com

Overall Topics Covered:

- Pure Mathematics
- Algebra
- Algebraic structures
- Algebraic and Combinatorial Topology
- Geometry and Topology
- Applied Mathematics
- Statistics
- Applications of Complex Variables
- Finite Element Methods for PDEs
- Calculus - limits, differentiation, integration
- Real Analysis & Topology
- Probability, Statistics and Queuing theory
- Complex Analysis
- Fractions, Percentages and Word Problems

- Equations, Inequations, Factorization and Expansion
- Mathematical functions, shapes and optimization
- Mathematical knots and links
- Mathematical equations and concepts
- Nonlinear Waves and Dynamics
- Numerical Analysis and Hyperbolic Equations
- Discrete Mathematics
- Numerical Mathematics
- Continuous Dynamical Systems
- Computational Mathematics
- Mathematical and theoretical biology
- Dynamical Systems and Ergodic Theory

Features

Articles, Research Papers, Review Papers.

Periodicity

January – June, July – December

Target Audience

Academicians, practitioners and post-graduate students in the field of Mathematics, University Educational Bodies, Researchers, etc.
