i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The first Journal “i-manager's Journal of Educational Technology” was released way back in 2004, and the first Engineering Journal, “i-manager's Journal on Engineering and Technology” was released in 2005. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Material science deals with the structure, properties and uses of materials in the fields of Chemical, Biomedical, Nuclear and Environmental engineering. The Journal aims to focus on high quality papers

from academia and practitioners in all areas of material science by ensuring its scientific concern and magnitude and offering a common platform for researchers and students. i-manager's Journal on Material Science endeavors to be one of the leading source of primary communication for researchers investigating the structure and properties of all engineering materials.
