## Call For Papers

i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Augmented & Virtual Reality aims to bring the cutting-edge research culminating gaming experience on metaverse using Augmented Reality and Virtual Reality and transitioning them into online business experience, virtual community experience and e-learning experience. This field is futuristic with technologies such as Artificial Intelligence, 3D modelling and reconstruction, Internet of Things, Edge Computing and 5G, and it has high academic research potential due to its business adoptability and commercial viability. The Journal would publish current research in this field and open the academic space for research enthusiasts and investors interested in constructing metaverse projects.
