i-manager Publications is a leading publishing house specialized in publishing Scientific, Technology, Education and Management Journals. The first "i-manager's Journal of Educational Technology" was released way back in 2004, and the first Engineering Journal, "i-manager's Journal on Engineering and Technology" was released in 2005. The credibility and impact of these publications in the Indian economic and academic environment reinforced the founding vision of i-manager Publications: promoting technology education and present international research worldwide.

i-manager's Journal on Software Engineering deals with the younger generation needs which to be tuned with critical perspectives on the existing methods of Information Technology, to find answers to their constant quest about the new dimensions of Artificial Intelligence, to explore new frontiers of computer science and to pave way to the domain of the virtual reality. i-manager's Journal on Software Engineering is an earnest effort to evolve the youth to achieve their full potentials. The Journal is solely devoted to the illumination of IT based younger generation and through this Journal we intend to serve as a platform for the researchers.
